

Facilities Manager Reporting Columns

Below are the fields/columns available for inclusion in textual reports. Textual reports can be built by selecting “Customized Textual Report” from the Reporting Tab in Facilities Manager.

When adding columns to a report template, the ‘Group’ must be selected first, the browser will refresh and the available columns for that group will then be available in the next drop down.

Further detail about how to create a report can be found by using the online “Help” facility in Facilities Manager.

Facilities Manager Reporting Columns

Toner and supplies details are will only be available if the device is licenced at the appropriate level. Coverage and Cost figures are only calculated once a device has been assigned to the appropriate Cost Profile within Facilities Manager.

It is also worth noting coverage calculation can only be made if the device has used an entire Toner (of each colour) during the reporting period.

Facilities Manager Reporting Columns

The following Columns relate to page counters.

There are 3 groups:

1. Page counts at the **Beginning** of the period.
2. Page counts **During** the Period.
3. Page counts at the **end** of the period.

Page counts at the **beginning** and **end** of the period relate to the value of the counter on the specified dates i.e. the meter readings.

Page count **during** the period is the difference between the beginning and end readings i.e. the **volume** for the period.
